### Claimed Material Assessment (CMA)

Hello,

A Verification Assessment [85713-2](#) has been submitted.

#### Report Result

**Acceptable** | **88.46%** (23/26) • **Area To Improve: 2**

#### Overall Comment

This Mills is Dyeing facility with Valid SC of GRS and RCS managing the process of Dyeing process of the Knitting Greige based on order of the Daenong as the Fabrics Suppliers.

Sources of GRS materials and selection of the raw materials done by the Daenong and Knitting greige delivered from the assigned the Knitting Mills stated on the PO.

Traceability and Mass Balance Sheets and process of the segregation from the materials- In Process and out-going goods observed followed the Procedure that set up.

Testing that conducted to validate the materials composition correctness done at the Knitting Mills level and this Dyeing Mills need to do counter check of the materials description correctness to support the accuracy on the materials supply chains.

List of chemicals that used need to be shared linked with the GRS requirement that the process in-placed need to be controlled on the Safety\_Healthy\_Environment risk on the chemicals being used on the Dyeing stages.
